Mercury Hits 91 Mark at 11:20 This Morning, but Zephyrs Start Descent

Vagaries of the Sea Breeze Accounts for Variation Around Bay

Before noon today the mercury in downtown thermometers gave every evidence that it had started out for a century run. Workers in the business part of town, on consulting their feelings, were convinced that this mark would almost be reached.

At 11:20 o'clock this morning Professor Charles Burkhalter looked at the weather gauge at Chabot Observatory and it was 91½ in the shade.

Oakland inhabitants thought Old Sol had done enough for the city on Friday, when thermometers registered 87 degrees and the town was "all hot up."

It proved to be nothing more than a preliminary heat, however.

Today it was warmer just before noon here than in San Francisco, where the mark was 84.

NOT FRIGID SUNDAY, EITHER.

Yesterday it was just about as torrid as today. The theaters drew small matinee houses, for during that part of the day the inhabitants were occupying cool spots in dwellings, in the parks and in the cool canyons of the foothills.

There was a record-breaking crowd in the water at Sunny Cove, Alameda. Many sought the beach on the San Francisco side. Although the morning baseball game at Freeman's Park was well attended, it served to inform the attendants, most of whom sat in the sun, just how hot it was.

And the fans made a firm resolve before the contest ended to offset their forenoon indiscretion by keeping as cool as possible the remainder of the day.

Yesterday afternoon at 3 o'clock Professor Burkhalter became inquisitive and took a look at the indicator. It registered 91 degrees.

YE GENTLE BREEZE WELCOME.

A seabreeze, which first hovered around San Francisco, began to fan Oaklanders early this afternoon and at 1:10 p. m. the thermometer had dropped to 82 degrees. The zephyrs, however, did not interfere with traffic in the delicious gin fizz, the long lager or the innocuous soft drink.

Planning for summer outings, influenced by the persistency of the warm wave, was resumed today with determination by those who are not required to remain in the city until the closing of schools.

The temperature at 1:10 this afternoon, 82 degrees, was one degree higher than the maximum for June, 1911.

DAIRY PRODUCTS SPOIL.

A milk, butter, produce and egg scarcity threatened Oakland and other points of the state where the heat is intense as a result of the last few days of high temperature. Local creamery, ice cream manufacturers and butter men particularly declare that owing to the general lack of facilities for preserving their commodities are spoiling and a serious scarcity will be experienced if the weather does not turn cooler.

The milkmen are especially hard hit by the heat, a number of them declaring that the demand is so heavy for milk and the supply so uncertain that they are unable to do more than supply their regular customers. Much of the milk goes in cans, through lack of adequate refrigerator cars, and the demand on the part of ice cream parlors is greatly increased.

Butter and egg dealers, retailers of cheese and produce men say that their supplies have fallen off to a marked degree within the past few days. The lack of refrigeration is responsible for the amount of commodities ruined following shipment.

Reports that the milk famine may result in curtailment of supplies furnished to customers are in circulation. In such a case milk will probably be furnished to families having small children in the usual quantity, while

WORKER IS FREED BY COURT

Member of I. W. W. Wins Fight Against Street-Speaking Ordinance

Motorcycle Officer Declares Prisoner Slapped Him When He Ordered "Move On"

SAN DIEGO, June 3.—A. B. Carson, the Industrial Worker of the World, who was arrested here after having spoken in the street and charged with having resisted an officer, a week ago, was freed today after a brief preliminary examination, in which only the prosecution offered evidence. The proceeding was held before Justice of the Peace Solon Bryan. A. I. Hathaway, motorcycle officer, was the first and only witness summoned. Hathaway was called by the prosecution.

Hathaway testified that he had seen Carson speaking from a box in the street, May 27th. Hathaway said he had approached Carson and said: "Get off that box and move on."

"Carson answered that he was within his rights," continued the officer. "Then I shoved him off the box and toward the sidewalk. He put up his hands and slapped me in the face two or three times."

PUT HIM UNDER ARREST.

"I told him to leave the place and kept pushing him along. About half a block from where he tried to speak I placed him under arrest. When I arrested him, he made no resistance."

During Hathaway's recital, there was considerable debate between the attorneys for the prosecution and the defense as to the applicability of the city's "move on" ordinance to the case. Justice Bryan held that he as a township magistrate could not consider municipal laws.

At the end of Hathaway's testimony, the prosecution submitted its case. The defense had no testimony to offer, having been apparently satisfied with that of Hathaway's. The court then discharged Carson.

Three more Industrial Workers.

FIGHT ON IN OHIO

'No Compromise' Is Slogan of Both Taft and Roosevelt Supporters

U. S. Senator Burton Brands Alarming Lack of Interest in Electorate

COLUMBUS, O., June 3.—With 11 and a possible 12 votes, the Taft forces will control the committees of the state convention and the next central committee. The delegates from the various districts met this afternoon and selected one member of each for each of the committees. Roosevelt supporters succeeded in electing only 5 members of 21 of each of the committees.

The eighth district, by a vote of 30 to 19, selected a Taft committeeman, thus giving Taft control.

This means Walter F. Brown probably will not again be chairman.

AGAINST COMPROMISE.

COLUMBUS, Ohio, June 3.—"No compromise" was the slogan of both Taft and Roosevelt leaders today, when they went into convention to fight for Ohio's six delegates-at-large to the national convention. United States Senator Burton, temporary chairman of the convention, also declared there would be no compromise.

Committee Chairman Brown, leader of the Roosevelt camp, said his figures of 40 of the 74 delegates had been reached without counting any of the Cuyahoga delegation.

L. C. Laylin, Taft's state manager, holds to the claim that the President will have 40 delegates.

Senator Burton of Ohio delivered the keynote speech, declaring the country was confronted with a crisis far surpassing any through which it has passed in the memory of the present generation.

He foreshadowed many of the tenets that will be laid down in the platform.

CAFE KEEPER'S TRIAL ON LARCENY CHARGE BEGINS

William Hopkins Appears in Court

Eleven jurors were passed this morning to try William Hopkins, better known as "Hopple," proprietor of the Hoffman cafe and grill, who is charged with stealing a \$12 silver purse and \$4 in cash from Selma Buckingham, a 17-year-old girl who was employed as an entertainer in his dive at 432 Seventh street.

"Hopple" appeared before Superior Judge Ellsworth, represented by his attorney, George McDonough. He seemed neither worried nor abashed despite the fact that conviction would mean imprisonment in either San Quentin or Folsom.

Deputy District Attorney Phil M. Carey and Deputy A. A. Rogers are prosecuting the case. In questioning prospective jurors the prosecution estimated that while it might put but one witness on the stand—the complaining girl—it would seek to show that Hopkins willfully purloined the purse and its contents.

Jurors were closely questioned by the defense as to whether they had ever any dealings with "Hopple" and all but one of them said they had not, nor had they formed any opinion from hearsay.

In illustrating for the benefit of Talesman Wells, Prosecutor Rogers told him that if there was a cold day, before I would take it under any circumstances," replied Wells, and the rest of the talesmen, including attorneys and the court, laughed.

Talesman Whitney, who lives in Berkeley and ranches in San Lorenzo, also occupied considerable time in examination. He told Attorney McDonough that he "was closely identified with the temperance movement in Berkeley and that while he had a good many warm friends in the saloon business, he did not like the business."

He had not had any previous acquaintance with "Hopple," however, so he was passed by both sides.

The other jurors who were passed this morning are: Joseph Cort, a storekeeper; R. D. Howe, an ex-contractor; John Avon, a former San Francisco police officer; Isaac Wells, a searcher of records; John Wade, W. H. Mara, a plasterer; E. D. Rue, insurance broker; O. D. Decker, railroad conductor of Alameda; William Whitney, farmer, and Owen Shortt, liquor dealer.

LIQUOR DEALER EXCUSED.

George Klinecliner was excused on the grounds that he was a liquor dealer and had dealings with Hopkins.

Court adjourned at noon until 2 p. m., at which time another talesman was scheduled to be drawn to fill the jury box.

That the evidence will develop into a question of veracity between Miss Buckingham and the defendant, her former employer, was intimated by both sides. Attorney McDonough stated that the tale-

Situation Quieter In Troubled Cuba

Paducah Will Carry Out Original Orders and Sail to Santiago.

WASHINGTON, June 3.—An improvement in the conditions near Paducah, Cuba, is reported to the state department today from the New York headquarters of the iron company, whose plant was threatened by insurgents. There is a lack of encouragement, however, in reports from other points. The consuls, while not reporting actual uprisings, indicate the existence of unrest.

Although the Cuban government has reported a victory over the insurgent bands near El Cobre, state department advice is that the situation there is still threatening and it is expected the Paducah will carry out her original orders and sail to Santiago, the nearest port to El Cobre, as soon as her commander feels it safe to do so.

Demoralization is extensive in Santa Clara province, Cuba, and while families are taking refuge in Cienfuegos, according to a telegram today from American Consul Bahr to the state department. He reported that negro insurgents are making attacks near Cricueva and Trinidad in the same province. Large numbers of strange negroes appearing in the province are believed to be from Jamaica.

Hundreds of physicians of the Atlantic City medical society, attending a delegation from Europe, already are here for preliminary meetings.

ATTACK BY FEDERALS FEARED

Mexican City Is Being Depopulated on Account of the Advance of Cavalry

Rebels Plan to Make Stand in Mountain Passes; Indians Massacre Troops

CHIHUAHUA, Mex., June 3.—Only 106 foreigners, out of a normal foreign population of at least 2000, reside in Chihuahua today. Of the 1000 Americans who ordinarily live here only thirty-five men and ten women remain.

An official census shows that fear of an attack by the advancing federal troops has practically depopulated the town. Thirty thousand persons inhabit Chihuahua in time of peace, but less than 20,000 are here, and the exodus daily is growing. Besides the Americans are twenty-six British subjects and thirty-three Germans.

Through the town by the main federal column under General Reyes is believed to be several days off, the possibility of a flank movement by General Villagel and General Hago, who are reported coming from Parral, southeast of Chihuahua with federal cavalry, has alarmed the population.

TO MAKE STAND IN PASS.

Present plans of the rebel leaders call for a stand at Bachimba, 40 miles south of here, in the mountain passes along the Mexican Central railroad. It is expected the government troops will not be able for some time to reconstruct the burned bridge to transport their artillery, and the rebels hope through the full to get enough ammunition to give the federal forces a battle at Bachimba. There is little ammunition in the rebel army, not enough at any time for an engagement, but the rebel leaders claim they are getting supplies rapidly, and will be well equipped when the fighting is resumed.

The guards opened fire and three men sank. All were white, except a negro who escaped on the shore side.

DANNY LONG QUILTS JOB AS MANAGER OF SEALS

William Reidy Succeeds Him; Pressure Believed to Have Caused Resignation

SAN FRANCISCO, June 3.—Daniel W. Long, manager of the San Francisco baseball team, has resigned. His retirement has been in the hands of the powers that be. It is said, for three days, but no confirmation of the rumor that he had decided to quit was given out until this morning. He is succeeded by William Reidy, former manager of the Oakland team, who was succeeded by Harry Wadsworth. Reidy was busy at Fresno before

Long and Captain "Kid" Mehlner presented the development of a winning team.

Long, who is a court stenographer in Judge Weller's court, was manager of the San Francisco club several years ago, and in that time produced one winning team. He was appointed to the leadership of the San Francisco club when J. Cal Kving and Frank Ish acquired control of the club from Henry Harris, a local

Reidy was at the Peace Robber training camp this season and about coaching the San Francisco players. He left for Los Angeles last night.

President Pardons Jones, Convicted of Land Frauds

WASHINGTON, June 3.—President Taft today granted an unconditional pardon to Willard Jones of Portland, Ore., convicted of land frauds in the famous cases in which the late Senator Mitchell of Oregon andlinger Hermann, former commissioner of the general land office, were alleged to have been implicated. The pardon was based on the grounds that improper methods had been pursued in filling the jury box from which the Jones jury was drawn.

Baby Girl Is Killed by Car in Front of Her Home

MANY IN FIGHT FOR IOWA OFFICES

State-Wide Primaries in Progress; Nominees to Be Chosen.

Senatorial Contest Overshadows Others, With Kenyon in the Race.

DES MOINES, June 3.—State-wide primaries are in progress in Iowa today, in which Republican, Democratic and other parties will choose nominees for United States Senator, Congressmen in the eleventh district, Governor and a full set of state, county and township officers.

The senatorial contest overshadowed all other contests. Senator Kenyon, who is opposed by former Senator La Fayette Young, editor of the Des Moines Capital, for the Republican nomination, was prepared to make a vigorous fight to retain his seat in the Senate, while the Des Moines Union was confident he would be returned to the position he held for five months following the death of the late Senator Jonathan P. Dooliver.

DES MOINES BATTLEGROUND.

The real battleground in the contest appears to be Des Moines, and according to leaders on both sides the result in Polk county and Des Moines probably will determine the result in the state at large.

Except in one or two districts it is said there was little likelihood of changes in the personnel of the Iowa delegation in Congress.

In the gubernatorial contest there was nothing to indicate early today the probable victor. All three Republican candidates, Geo. W. Clark, present lieutenant-governor; Perry G. Holden, formerly of Ames Agricultural College, and State Senator A. W. Proudfit of Indianola, were confident of success, and their managers made optimistic claims.

T. C. Quinn of Mason City and John T. Hamilton of Cedar Rapids are the Democratic candidates for Governor.

YOUNG IS FAVORITE.

COUNCIL BLUFFS, Ia., June 3.—A heavy vote is being cast in today's primaries. Young seems to be the favorite in Pottawattomie county for the Republican nomination for United States Senator, but it is generally believed that Kenyon will carry the Ninth Congressional district.

PEOPLES CO. DEMANDS INCREASE IN WATER RATES

President Havens Contends Figures Are Too Low to Return Adequate Interest

Formal demand for an increase in water rates for the fiscal year 1912-1913 over those current at the present time was made upon the city council this morning in a communication from Frank C. Havens, president of the Peoples Water Company. The demand is made despite the fact that there is in the files of the city clerk a solemn agreement on the part of the Peoples Water Company not to ask for any such rate increase.

The letter was filed by President Havens this morning in response to resolutions passed by the city council asking for additional data for the fixing of rates to private consumers for the coming fiscal year.

President Havens contends that the present rates are so low that they fail to return an adequate interest on the investment which is represented in the plant of the Peoples Water Company.

The request filed by the water company will be considered by the city council tomorrow afternoon, when City Expert J. H. Dockweller will advise the council as to the value of the water company's contents.

AGREEMENT IS BINDING.

The agreement, signed by the council and the water company in 1907, and known as the Pondition-Titus agreement, provided for a gradual reduction of the rates up to June 30, 1911, and contained a clause in which the Peoples Water Company solemnly promised not to demand an increase in the rates in effect June 30, 1911. Those rates are now in operation.

"The Peoples Water Company demand that you make such increase in the rates for the ensuing year," declares Havens in his communication, "as will secure to it an adequate return upon the value of its property as sold value has been from time to time elevated in the present past and as said value is known to be enhanced by the steady rise in the costs of real estate, structural features and water rights."

EARNINGS AND EXPENSES.

"The earnings and expenses of the company on account of the Oakland

division during the calendar year 1911 were as follows.

| | |
|----------|-------------|
| Receipts | \$1,087,237 |
| Expenses | \$323,342 |
| Taxes | 109,927 |
| | 432,368 |

| | |
|--|-----------|
| Structural depreciation | \$664,368 |
| Net earnings from operation after deducting depreciation | \$186,559 |
| Dividend | \$478,309 |
| Reserves | \$478,309 |
| Total | \$956,618 |

"The inadequacy of the present rates is manifest from these figures."

ing of testimony would probably not be concluded today and that the trial might consume two or three days.

At the afternoon session in the case of the People vs. Hopkins, August Mass, an insurance man, was temporarily passed into the jury box, making the twelfth prospective juror. The prosecution excused two by peremptory challenge and the defense challenged four, leaving six men in the box to be sworn as jurors.

C. R. Hoensie, a salesman, was then, excused by consent of both sides and five other talesmen were examined as to their qualifications for sitting on the jury. They were:

M. H. Garlin, N. R. Breedlove, Charles W. Davis, John Gassner, Owen Deane. Practically all of the remainder of the afternoon session was devoted to completing the jury. Tomorrow morning the trial will commence in earnest with Selma Buckingham on the stand. She will tell the story of her relations with Hopkins and the events leading up to the purloining by him of her purse.

In spite of the warm weather the court room was crowded with spectators interested in the case. Every seat in the court room was occupied and many were forced to remain on the outside.

That the case may develop some circumstances that have not hitherto been made public and that sensational testimony regarding the conduct of the dive by Hopkins, the proprietor, may be forthcoming, is the probable drawing card for large numbers of people who have heard, directly or indirectly, about the resort and its relative character.

Stanley Moore made the principal argument for Fleming, who is endeavoring to secure a new trial on the ground that his former trial was unfair. The case is still being argued.

84 ACROSS BAY AT NOON.

SAN FRANCISCO, June 3.—The weather is playing pranks today. While it started out at midnight to be warmer than any day of the season, it began to bob up and down from one temperature to another until at noon it was 84 degrees with a prospect of an upward soaring of the mercury in the afternoon.

The temperature here at 1 o'clock was 82 degrees and at 2 o'clock 80 degrees.

Warm weather is general throughout the entire state north of the Tehachapi, and in the great valleys the thermometer this afternoon is registering above the 100 mark.

In San Francisco and about the bay it was 68 degrees at midnight. The thermometer then fell to 61 at 4 o'clock and rose to 70 at 7 o'clock. This was identical with the temperature at that hour yesterday.

At 9 o'clock it was still warmer, being 81 degrees. It was 82, and in the brief half hour, 10 to 10:30, it went up four degrees.

At 11 o'clock it had fallen to 82, and at 12 noon to 84.

The vagaries of the sea breeze accounts for the see-saw of the thermometer barometer, but no such spasms of relief are coming to the interior section.

Forecasters McAle received only the morning reports from the interior up to noon and these give the following temperatures throughout the state at 9 a. m.: Red Bluff, 80; Sacramento, 72; Fresno, 72, Los Angeles, 58; San Diego, 68; San Luis Obispo, 52; San Francisco, 62; San Jose, 66, and Eureka.

The cool weather in the south is accounted for by heavy fogs.

ASKS POLICE TO SEARCH FOR MISSING HUSBAND

The police have been asked to assist in the search for H. M. Baker, 316 Harrison street, who has been missing from his home for several days. Mrs. Baker has asked the authorities to locate her husband.

Baker, who was a former foreman of electrical workers of the Southern Pacific company, took most of his clothes when he departed, telling his wife he was going away for a short time. Mrs. Baker has since been unable to locate him and believes he has gone to his winter home in Fairfield, Michigan.

'HUMAN TIGERS' THREATEN BREAK

Demonstration by Convicts at Folsom Cause Five Guards to Resign.

SACRAMENTO, June 3.—Knowing that there was to be a change in the administration of the State Prison at Folsom Saturday, the convicts confined within the walls of that penitentiary became unmanageable last Friday night and caused no end of trouble. So great was the disturbance that five of the guards resigned their posts of duty when Warden Reilly surrendered his position to James Johnston, recently appointed by the State Board of Prison Directors.

It is said that more resignations will be made as soon as Warden Johnston can find men to take the places to be vacated. The disturbances at the prison began after the convicts were locked up for the night. They were extremely restless during the day, but, knowing that Reilly's stern hand would be upon them if they committed any offense, they did not attack the warden. Once within their stone walls of the prison, however, their discontent found expression in doleful cries from the cells. Within a few minutes practically every prisoner was howling at the top of his voice. They refused to be quieted. When guards spoke to them and threatened them they answered by uttering curses upon Reilly's and Johnston's heads. They swore and called the warden and the guards all the vile names they could lay tongue to.

In one cell, where twenty-five prisoners are confined, the men were particularly abusive. One prisoner's actions were so vile that a guard in charge fired a shot into the cell over the heads of the prisoners to frighten them.

VENT THEIR HATRED. The convicts were more ferocious toward Guard Ramirez than any other and they tried to anger him so that he would enter the cell. It is believed they would have killed him if he had dared to enter. Ramirez said he had had enough and gave up his job to seek more congenial employment elsewhere.

It is said that Friday night's demonstration is only a forerunner of what would be attempted to frighten Warden Johnston and his men. When Warden Johnston charged right into the cell, a similar demonstration was given by the convicts, but when the first break was attempted they taught the prisoners a lesson that was remembered all of his term and he had no further trouble. Three convicts were killed at the first attack.

The prisoners had learned that Warden Johnston's theory of prison management was to treat convicts with leniency. On taking up his duties Johnston prepared himself for the worst. He gave orders to the guards to keep a strict watch on the convicts and to be ready to use force if necessary.

The convicts had intended to repeat Friday night's performance Saturday night, but for some reason it failed to materialize. There were a few riots when the lights went off at 9 o'clock, but they soon ended.

STREETS FLOODED BY BREAK IN MAIN

Street Car Derailed and Traffic Stopped When Geyser Shoots Into Air.

SAN FRANCISCO, June 3.—The breaking of the large water main at Twenty-fifth and Valencia streets at 12:30 o'clock this morning resulted in the flooding of the entire neighborhood and the forming of pools on three thoroughfares. The members of Engine Company 15, which is located on Valencia street, near Twenty-fourth, were aroused by the sound of the stream flowing past their quarters, and the apparatus was called out by the police a few moments later. The water was shooting into the air to a height of a hundred feet, and a stream swept down Valencia to Twenty-eighth and down Twenty-fifth street to Mission. The owl car service on Valencia street was tied up and one of the cars which was attempting to run through the flood was derailed. By unit of much labor the firemen succeeded in blocking the current some distance from the scene of the break, shortly before 2 o'clock.

AMERICAN GIRL KILLS HERSELF IN PARIS

PARIS, June 3.—Miss Margaret Craven of Madison, Ind., committed suicide yesterday in her apartment, 28 Rue de Coligny. She shot herself through the heart with a revolver, leaving no message. The coroner found the body shortly afterward and communicated with the police. It appears that Miss Craven received a letter from her mother, who was in Paris, and seemed to affect her greatly. She was a member of a well known Indiana family, and had considerable private means. She came to Paris five years ago to study music.

COLISEUM MADE READY FOR NATIONAL CONVENTION

Practically Every Bit of Available Space Will Be Used by Republicans

CHICAGO, June 3.—For the third time since its erection, 13 years ago, the doors of the Coliseum will be thrown open June 18 for the accommodations of a Republican national convention.

In 1894 the Republicans nominated Colonel Theodore Roosevelt for President in the building and in 1908 under the same roof William H. Taft was chosen as the party's standard-bearer.

The Coliseum is on Wabash avenue between Fifteenth and Sixteenth streets, less than a mile from the center of Chicago's retail shopping and hotel district, and is accessible from all parts of the city by elevated roads and surface lines. The Coliseum is 305 feet long, 170 feet wide and 70 feet in height, built of stone, brick, steel and concrete, and is fireproof. It stands on the site of the old Libby prison, which was brought to Chicago from Richmond, Va., in sections and rebuilt the year of the World's Fair by Charles F. Gunther, and used to exhibit a valuable collection of Civil War relics. It is of modern Romanesque combined with the English Castellated type of architecture, and cost \$800,000. It has been the scene of many notable assemblages. It has eleven lanes and can be emptied in five minutes in an emergency.

The sub-committee on arrangements of the Republican National Committee, under the direction of Colonel Harry S. New, has expended \$40,000 preparing the building for this year's national convention of the Republican party. The building has 11,188 seats, of which 7688 are on the main floor and 3500 in the balcony.

SPEAKERS' PLATFORM. The speakers' platform is built against the south wall of the structure, and extends across the entire width of the building. It is 75 feet deep and contains 1932 seats, which will be occupied by the chairman, officers of the convention, members of the national committee, and distinguished guests.

The seats back of the chairman's table will be slightly elevated. Directly beneath the chairman's table is a space for four wireless telegraph instruments and their operators, by which news of the convention's proceedings will be flashed to the world. On both sides and extending in a half circle around the front of the platform are seats and tables for 400 working newspapermen and correspondents from all parts of the country.

Directly in front of these are the seats for the 1073 delegates arranged by states. This space will be enclosed by a railing and closely guarded by a large force of sergeants-at-arms. Back of this are the seats for the 1073 alternates enclosed by a guard with both sides and in the rear of the space occupied by the delegates and alternates are 3500 elevated seats for visitors. At the north end of the building a special bandstand will be erected. In the balcony, which extends around the four walls of the building, there will be 3200 seats for visitors.

HOBART TO TRY ACROBATIC FEAT

Society Man Will Attempt to Duplicate Tweedmouth's Stunt.

HILLSBORO, June 3.—Practicing an acrobatic stunt, proficiency in which would enable him to win a right sizable wager from Harry Scott, son of Henry T. Scott, president of the Pacific Telephone and Telegraph Company, Walter Hobart, poloist and clubman, took a tumble that many of the peninsula smart set believe may relegate him to the losing end of the bet.

At Saturday night's dance at the Burlingame Country Club, given by Harry Scott and George and Raymond Arnsby to J. Chas. Cowdin and Sam Hopkins, Hobart and Scott entered into a discussion regarding the athletic achievement of Lord Tweedmouth at Coronado a short time ago. His lordship accomplished the feat of walking up a flight of sixteen steps on his hands and making the return trip in the same extraordinary manner, which was voted an absolutely ripping acrobatic performance.

Hobart, however, was of the opinion that it was not such an utterly difficult task, and that if he was willing that he himself could duplicate his lordship's thriller, providing he was allowed a bit of a rest upon reaching the uppermost of the sixteen steps. Scott rather doubted Hobart's ability to equal the feat of Tweedmouth, and offered the following risk: He would give Hobart \$500 should the latter prove successful in his effort, providing Hobart would pay him \$25 for each step he failed to negotiate. As an additional proviso Scott was to pay \$25 for each additional step Hobart was able to make, and it was agreed that the test should be made within a week.

Hobart accepted the terms of the wager, and yesterday afternoon started training for the trial at his country home in Whipple's canyon. Becoming fatigued after a most strenuous effort, however, he toppled over and fell heavily upon his right leg, severely bruising that member. A number of friends who were watching exhibited great anxiety when Hobart tumbled, but the poloist insisted on laughing, and declared that with a trifling amount of practice he would very soon succeed in duplicating Scott's feat, he knew of acrobats.

AMERICAN CASTAWAYS SEND MESSAGE IN BOTTLE

PUNTA ARENAS, June 3.—The Government has sent a warship to search for a party of American castaways. This action is in response to a note found in a bottle on the beach, which said that an American steamer, the name of which was badly blurred, but might be deciphered as Virgenes, had been wrecked off Cape Horn.

"There are seven of us on an isle," the note said. "We have a boat, but are afraid of cannibals. Send help. Our Government will pay." RAILWAY CLERKS HOLD THIRD BIG CONVENTION. BOSTON, June 3.—With an attendance of nearly 200 delegates from all parts of the United States, Mexico and Canada, the third annual convention of the Brotherhood of Railway Clerks opened here. The convention will last through the week.

KELLY'S SLIDE WAS NEVER LIKE THIS

Society Women Risk Necks to Put Out Fire in House-boat.

SAN RAFAEL, June 3.—By their pluck and presence of mind in making a speedy descent down the treacherous slopes of Bay Shore Acres, Mrs. W. S. Pardy and Mrs. Charles Upton prevented what might have been a wholesale burning and destruction of the arks and rowboats that lie on the flats of the bay along the Marin county shore.

Guests at Mrs. Upton and Mrs. Pardy had joined in social politics at the home of the latter on Saturday afternoon. The party were seated on the porch of Mrs. Pardy's beautiful mountain home which overlooks the head of the bay.

Just at a moment when the hostess hoped for was a fire of any sort, Mrs. Upton noted that smoke and flames were rising from the vicinity of the boats that lay on the shore half a mile away.

The party deserted their straw-beds and began a hurried descent towards the fire that was swiftly engulfing the improvised piers leading to the houseboats.

But as the men rushed down the winding road that leads to the shore, the two women took the more dangerous route, scrambling down the steep, rock-strewn hillside.

It was a short but perilous descent, like hurdlings down the side of the Great Pyramid at express speed.

By the time they reached the old ark the flames had eaten up George Pardy's rowboat and begun to smother at other boats near by.

Together the women wrenched a couple of poles from the stairway approach and battered down the burning pier.

With the arrival of the male members of the party the blaze on the pier was quenched. The tide was full and, by standing in the water knee deep and flinging water upon the fire, both the men and the women were able to subdue the flames and prevent further damage being done.

Mrs. Upton and Mrs. Pardy were both badly burned about the hands and suffered from scorched faces.

FAKE ELK TEETH DUPE MEMBERS OF ORDER

NEW YORK, June 3.—Action will be taken by agents of the B. P. O. E. and the American Jeweler's Protective Association, co-operating with the national jeweler's board of trade, to run down the clever Japanese who have flooded the country with bogus elk teeth, much to the indignation of thousands of duped Elks who have been wearing walrus teeth, at their watch guards and fobs while they thought they had the genuine dental souvenirs of dead wallowers at the sylvan troughs of the sacred herd.

A good elk tooth is worth about \$25 uncut. The "cut price" of \$1 and \$1.50 in the heart of the gem market, Maiden Lane. When this got noticed about an investigation started, and an elaborate story of how the elk teeth had been found in Indian mounds on a western ranch was run to earth and found to be fiction.

SCARED SLEUTHS PROWL ABOUT IN DARKNESS

SAN FRANCISCO, June 3.—Scared city sleuths were a bunch of scared men last evening. For two hours they had to prowl around the Hall of Justice in confusion, for there was no light. The whole floor was in the exception of the assembly room, which without light because the janitor closed the electric switch closet on the wall, for which no keys had been left.

Acting Captain of Detectives James Armstrong and the officers in the front business office had to hold their vigil in the assembly room, the switch of which happened to be turned on when the clock struck ten. Finally Sergeant Dan O'Brien was struck with a brilliant idea. Fetching a screw-driver from the basement he unscrewed the hinges and so let forth the light again.

SMUGGLED CHINESE ARRESTED IN CHICAGO

CHICAGO, June 3.—Five Chinese, all men, who are believed to have been smuggled into the United States from Canada and all of whom were well supplied with money, were arrested last night in South Chicago. The detectives who made the arrests were offered \$500 by one of the Chinese, apparently the leader, not to arrest them.

HAIR HEALTH

If You Have Scalp or Hair Trouble, Take Advantage of This Offer.

We could not afford to so strongly endorse Rexall "33" Hair Tonic and continue to sell it as we do, if we were not certain that it would do all we claim it will. Should our enthusiasm carry us away, and Rexall "33" Hair Tonic did not give entire satisfaction to the users they would lose faith in us and our statements and in consequence our business prestige would suffer.

Therefore, when we assure you that if your hair is beginning to unnaturally fall out or if you have any scalp trouble, Rexall "33" Hair Tonic will promptly eradicate dandruff, stimulate hair growth and prevent premature baldness, you may rest assured that we know what we are talking about.

Out of one hundred test cases Rexall "33" Hair Tonic gave entire satisfaction in ninety-three cases. It has been proved that it will grow hair even on bald heads when, of course, the baldness had not existed for so long a time that the follicles which are the roots of the hair, had not become absolutely lifeless.

Rexall "33" Hair Tonic is vastly different from other similar preparations. We believe that it will do more than any other human agency toward restoring hair growth and hair health. It is not greasy, and will not gum the scalp or hair, or cause permanent stain. It is as pleasant to use as pure cold water.

Our faith in Rexall "33" Hair Tonic is so strong that we ask you to try it on our positive guarantee that your money will be cheerfully refunded without question or quibble if it does not do as we claim. Certainly we can offer no stronger guarantee.

It comes in two sizes, price obtainable only at The Owl Drug Company, 50 cents and \$1.00. Remember you can store in Oakland, San Francisco, Los Angeles, Sacramento, Portland, Seattle, Spokane.

THREE BADLY HURT IN AUTO ACCIDENT

Aged San Francisco Man May Die as Result of Injuries.

SAN RAFAEL, June 3.—Through the overturning of an automobile on the Petaluma road, three miles north of San Rafael late yesterday afternoon, H. C. Costa, 70 years of age, was so badly injured that he may die. Mrs. Andrew Costa, his mother-in-law, sustained internal injuries and Edga Schaeffer, a 5-year-old lad, has a sprained right arm.

In addition to the injured persons the machine contained Andrew Costa, who was driving, his mother and his two boys, aged, respectively, 12 and 3 years. Beyond a few bruises none of the latter was injured. Costa is a real estate broker of San Francisco and resides at Larkspur. After the accident he ran to a roadhouse a short distance away and telephoned to a San Rafael garage, which sent out an automobile and conveyed the injured people to their home at Larkspur.

The accident was indirectly caused by Costa's attempt to cross the Northwestern Pacific railroad tracks just ahead of a swiftly moving train. He got across safely, but turned around to look at the train. As he did so the machine swerved and ran over the embankment, which is only three feet high, but which served to completely overturn the car.

The elder Costa's injuries consist of several broken ribs, and it is feared that, on account of his advanced age, these, together with the shock, may prove fatal.

'IN BANANA LAND' THERE IS TROUBLE

Mike, Ike and Company Tum- ble Into Difficulties; New Soubrette Scores.

A merry throng joined Dillon & King's pleasure party yesterday for a short sojourn in "In Banana Land," and from all appearances enjoyed themselves tremendously. The new pit contains enough action to assure an Egyptian mummy. At first it looks as though there might be a marriage, then the wind clouds gather and it appears as if the wind was going to blow up a revolution.

The plot is consistent and is exceedingly well told. Mike and Ike, two Americans, make their appearance in an imaginary island somewhere in the South Seas, as guests of a wealthy plantation owner. It appears as though a plot was laid to marry off the heiress and the Irishman to suit the convenience of their business. The overseas and a Latin American made her initial bow to the visitors by persuading them to enter the plot of the revolutionists. As Mike and Ike were not revolutionists, they were not to be trusted. They were, however, successful in getting themselves in many ludicrous scenes and situations.

The two principal soubrette parts were capably handled by Ben T. Dillon and Will King, while Charlie Reilly and Frank Conner were playing as Alfred and the Overseer, respectively. On this occasion, the most conspicuous among the women was Miss Clair Starr, the new soubrette who made her initial bow to the audience yesterday. In the role of a Latin, the newcomer had little to do but look pretty, wear a stunning gown and make a song or two. Her song, "You're My Baby," was enthusiastically received, winning several encores.

The musical program proved very enjoyable. Maude Beatty, assisted by the chorus, sang "Moonlight Bay," while Charlie Reilly and Charlie Reilly sang "You're My Baby." Hazel Gotsung received several deserved encores with "Beautiful Dixie Song," "Deedie Lullaby," sung by Francis Tullander and "You're My Baby," rendered by Miss Starr, were well received. The Columbia orchestra, under the leadership of Ernest Weigel, rendered several delightful selections. Martin Hobbs, with his cello accompaniment, made several song numbers most enjoyable.

The costumes and stage settings are adequate for the occasion and the Orpheus club as singers as ever. The bill will be repeated for the balance of the week with the usual performances.

MEMORIAL SERVICE HELD BY WOODMEN

Monuments Are Unveiled and Graves Decorated by Lodge Members.

Monuments were unveiled and graves were decorated in Mountain View Cemetery yesterday by the members of the associated camps of the Woodmen of the World of Alameda county at their annual memorial service.

Hundreds of Woodmen, wearing the insignia of the order upon the lapels of their coats, assembled in front of the cemetery gates at 2 o'clock and marched to a plot selected by the lodge for the formal ceremony. Closely following the Woodmen ritual, the exercises were conducted by the officers. Tribute was paid the departed brethren by John A. Sands of Oakland camp, master of the day, and the East Oakland unit gave a number of selections, which added to the solemnity of the observance. Frank M. Smith of Alpha camp was the reader.

During the morning the camps of this county unveiled individual monuments and deposited flowers at the plots.

Representatives of the various camps composed the arrangements committee. They were:

R. C. Voss, of Alpha camp, C. H. Harvey of Oakland camp, W. H. Morrison of Forest camp and D. P. Squier, of the day.

The officers of the day were: H. M. Hayward of Forest camp, master; J. C. Brown, consul commander; Spencer Brown, adviser; lieutenant: H. O. Brink of Corvito camp, banker; I. W. Edwards of Forest camp, treasurer; G. T. Barry of Bay Tree camp, secretary.

CHARGES DROPPED; SOCIETY IS HAPPY

Wood and Berthoff Will Not Have to Answer for Merry Mix-Up.

There will be no charges filed against W. T. Wood of the E. K. Wood lumber company, nor against John Berthoff of Berkeley, as a result of the free-for-all fight which occurred last night in front of a saloon at College avenue and Fifty-ninth street, and in which Patrolman John Gannaw was roughly handled before he was rescued by the police. The two men were not charged because the charges were dropped by the district attorney.

The fight was a healthy contest, and the men were not charged because the charges were dropped by the district attorney.

'HUMAN ENGINE' HAS BUSY DAY

Newly-Elected Sheriff of Denver Closes up Town Dives.

DENVER, Colo., June 3.—Characterized as a "steam engine in breeches," by Police Commissioner Cragg, the newly elected sheriff, Daniel Sullivan, spent his time since Saturday night until dawn today driving proprietors of up town dives and take cafes into a panic in a rigid enforcement of the Sunday closing law. He also went the rounds of the disorderly houses and ordered them to close, dropped into 30 alleged clubs and closing them ordered their alleged proprietors to appear before him at his office this morning at 10 o'clock.

Police Commissioner Cragg, himself an appointee of the new administration, declared that the sheriff was using his new broom to do the police chief's sweeping. Chief of Police O'Neil is also a member of the new administration, pledged to clean the city.

STATE W. C. T. U. TO CONVENE IN SOUTH

Delegates to Number of 200 Gather at San Diego.

SAN DIEGO, June 3.—With nearly 200 delegates here now, the State convention of the Women's Christian Temperance Union will be begun tomorrow morning in the Central Christian Church. A meeting of executives will be called first and the formal opening of the convention take place at 1:30 o'clock in the afternoon. Mrs. Hester T. Griffith, state president, will preside.

The appointments of officers and committees of the convention and the hearing of reports will take up most of the afternoon. In the evening addresses of welcome will be made by A. E. Hodson, acting mayor of San Diego, the superintendent of schools, a number of pastors of leading churches and well-known club women.

NOTED READER ON CLOSING PROGRAM

Mrs. Sam Caro to Speak Before the Daughters of Israel.

The closing program for the season of the Daughters of Israel will be one of unusual interest and merit. Mrs. Sam Caro of San Francisco, a reader of much ability, will give a dramatic rendition of Suderman's "The Far Away Princess." Miss Ray del Valle of San Francisco, who recently returned from years of study in European musical centers, will sing a group of songs and will be accompanied by Miss Clara Lowenberg.

The meeting will be held at the vestry rooms of the Synagogue, Twelfth and Castro streets, on Wednesday, at 2:30 p. m. A cordial invitation to attend has been extended to members and their friends.

'SOCIAL REVOLUTION' B. FAY MILLS' SUBJECT

Benjamin Fay Mills of Chicago, formerly Pastor of the First Unitarian Church of Oakland, will arrive tomorrow afternoon, and will deliver his new lecture, "The Social Revolution" at Rice Institute, at 8 p. m. tomorrow.

Dr. Mills has many friends in Oakland and it is expected that a large crowd will hear him on his new phase of the work. Admission to this lecture will be free.

THREE VICTIMS OF MOTORCYCLE CRASHES

Three victims of motorcycle accidents were treated at the receiving hospital yesterday by Steward Platt.

W. T. Hemmell of 144 Adeline street was struck by a reckless rider at Eighth and Broadway and sustained a ragged laceration on his right leg.

W. H. Lane of 1847 Santa Clara avenue and Henry Schauf of 1125 Park avenue, both of Alameda, were thrown from a motorcycle at Fourth and Broadway and each received minor abrasions upon the face and body.

TRIOUBLE BEGINS

At College avenue and Fifty-ninth street an identified man drove an unbroken horse so close to the automobile that the horse became alarmed and kicked out at the machine, breaking the side glass windows. Sluggs, who was on that side, turned his back to protect the child, receiving the kick.

Reilly hoped out and attempted to force the driver of the horse to give his name. The man declined, and an altercation took place which drew half a dozen bystanders from the nearby saloon. Patrolman John Gannaw, who lives in the neighborhood, came to the scene in civilian clothes, and attempted to straighten out the tangle.

Berthoff questioned Gannaw as to his authority, and when the patrolman, nettled at the clubman's manner, failed to show his star, Berthoff is said to have landed a swift punch to Gannaw's jaw, knocking him to the gutter.

A general melee followed, in which Wood, Sluggs and Berthoff were forced to protect themselves from the onslaught of the bystanders who came to the rescue of the policeman.

Sluggs managed to telephone to the country club for reinforcements, and a number of automobiles were impressed into service. His friends to go to the rescue. Al C. Coogan and his sister, Miss May Coogan, John J. Donovan, Captain W. F. Higgins of 2137 Rose street, Berkeley and a number of others hurried to the scene.

By this time Gannaw had handcuffed Wood and Berthoff and had loaded them into the patrol wagon, having hastened to obtain reinforcements from the central police station.

Led by the patrol wagon, a parade of automobiles bearing society people proceeded to the police station, where Wood and Berthoff were booked for battery and where an indignation meeting was held by the club members.

TUESDAY, JUNE 11TH

WILL BE

TRIBUNE DAY

AT BEAUTIFUL

IDORA PARK

FREE FUN FOR EVERYBODY. YOU ARE INVITED TO BE THE TRIBUNE'S GUEST.

We have made every preparation to make Tribune Day at Idora Park the greatest holiday of the year. Our plans are all complete and we can promise all our guests a memorable treat. We have leased this great pleasure park for the entire day and have arranged a program that will prove startling in every respect. We are fortunate in announcing that Lofaso and his celebrated band has been engaged for this occasion. A Balloon ascension and half a hundred other sensational features have been added.

Subsequent reports had that the children here had gone to a the young woman in looking after her share of the family fortunes, which said to be about \$250,000.

It is believed that the well will continue to run for many days. The lease will run for 300 days.

CLARK TO BE NAMED.
RENO, June 3.—Six delegates pledged to Champ Clark will be elected at the Democratic state convention which convenes at Fallon today. Champ Clark was the choice of Nevada Democrats at the prefatorial primary held last month and no fight will be made against him at the convention. Trouble is looked for over the delegates, as the club has only one hundred tickets, and the field is crowded.

RICHMOND, June 3. What will be the largest meeting of the board of directors of the Chesapeake and Potomac Telephone Company, Inc., in its history, is scheduled to take place at the Washington Hotel, next week, when the long harbor project was launched. Mayor J. C. Owens, head of the survey and recommendations committee, will be in attendance. The report of Colonel Ross, will be forwarded to Washington during the next few days. The board is expected to come from the east tomorrow and will be in the city until the 10th. At this board of 10, the meeting place of motion pictures taken by the board will be the subject of discussion.

"Shall the Bay Cities Consolidate?" will be the question for debate under the leadership of Rev. Dr. J. H. H. Smith, pastor of the Plymouth Congregational Church, Friday evening, in Plymouth Center, Laurier street and Plymouth avenue. Wm. Sharpstein of Minnesota will represent the "No" side, and Rev. Dr. J. H. H. Smith will represent the "Yes" side. The debate will be in a negative phase and will be presented by Mr. E. Glason, president of the Oakdale Chapter of Congress.

An Illinois "No" ticket will be headed by Mr. M. C. McLaughlin, Secretary of the U. S. M. C. A., and Mr. W. J. McLaughlin, president of the U. S. M. C. A., in Plymouth Center, Nov. 10, 1914. The subject will show a direct Railroad Tax

Hyatt and the Shanahan Amendment.

THE TRIBUNE has done the State Superintendent of Public Instruction an injustice in stating that he favors the so-called "teachers' amendment" to the Shanahan free text-book law. Superintendent Hyatt opposes the amendment, and advocates the ratification of the Shanahan law as it passed the Legislature.

We are glad to make this correction, because it always gives THE TRIBUNE more pleasure to commend than to find fault. Moreover, the reasons Mr. Hyatt gives why the teachers' amendment should be disapproved are unanswerable. In a single paragraph he condenses the objections to the scheme:

"This proposed substitute for the free text-book amendment is of such intense desire, such great pecuniary value to the book-publishing interests, that we educational people can not afford to stand for it or champion it. We are in the position of protecting the interests of the children and the people of the State as against private concerns of all kinds. This measure at one sweep knocks out State publication of text-books and establishes local adoption of text-books, the two things most ardently, fiercely desired in this State by all the book companies. We school people can not safely pull these chestnuts out of the fire for them."

We agree heartily and unreservedly that the Shanahan amendment should be adopted without alteration. The proposed substitute would not only destroy the purpose the Legislature had in view, but would reopen the door to scandal and corruption. Local option in the selection of text-books for the common schools is a failure, as has been shown by experience, and it is fruitful of jobbery and unnecessary expense. The proposal to destroy uniformity in the schools comes from the book publishers, who are seeking not merely to frustrate the purpose of the free text-book amendment, but to nullify the provision of the constitution requiring the State Board of Education to compile a uniform series of text-books, to be printed at the State Printing Office.

The main purpose of this article, however, is to give Superintendent Hyatt credit for being on the right side in this matter. We had accepted without question the statement of a contemporary which had somehow (innocently, we presume) got the matter wrong, and in consequence did Mr. Hyatt an injustice.

The Bakersfield Californian says it cannot see how THE TRIBUNE can support Roosevelt in case he is nominated. Between two evils choose the least. It is much more consistent for THE TRIBUNE to support Roosevelt than a free-trade Democrat, or a Socialist. Our Bakersfield contemporary forgets the alternative.

Apparently the convicts at Folsom Prison have started a free speech campaign. They have signalized the change of administration by howling in their cells and hurling foul epithets at the guards, and otherwise showing their contempt for the rules and their hatred for prison officers. Colonel Weinstock ought to be sent to Folsom as a special commissioner. He would doubtless report that punishing a convict for violating the rules and insulting his keepers is an infraction of liberty, and that the officers guilty of the tyranny should be removed and punished.

Making Citizens of Revolutionists.

When a foreigner makes application to become a citizen of this country he takes an oath to support the constitution and laws of the United States and of the State in which he resides. His right to become a citizen is conditioned upon his taking such an oath.

But suppose the applicant belongs to an organization that is avowedly seeking to overturn the constitution and laws of this country and to destroy the system of government of which they are the framework? He asks the privilege of the ballot that he use it against the government whose constitution and laws he has sworn to uphold and defend.

Before a foreigner is granted full citizenship, he files a declaration of intention, renouncing allegiance to the country of his birth and makes oath of allegiance to the government of the United States. Suppose, when he appears and demands his final papers, it appears on his own admission that he belongs to an organization that is in open hostility to this government and its flag; that he avows a desire to subvert the laws and institutions he has sworn to cherish and defend, and that he holds the flag which symbolizes them in derision and contempt.

Is such a man qualified under the law to become a citizen? Is he not seeking the right of citizenship that he may use it to destroy the government which he has sworn to loyally defend?

An answer to these questions is pertinent to criticisms passed upon the recent action of Judge Hanford of the United States Court in cancelling the first papers of a foreigner named Oleson. Some of the criticisms go far afield in search of material unfavorable to Judge Hanford. An effort is manifestly made to prove that Judge Hanford was wrong in other cases, not that he was wrong in the Oleson case. Oleson admitted that he is hostile to the constitution and laws of the United States and that he desires to subvert them. He likewise admitted that the red flag of internationalism rather than the American flag claimed his allegiance.

Holding to such sentiments, how could he consistently be a supporter of the constitution and laws of the United States? How is it possible for him to be faithful to his oath of citizenship and cherish the design he acknowledges?

As the motorman usually runs beyond the stop sign at street crossings, the Traction officials might make it a little more convenient for the public by moving the stop sign to the far side of the street. But perhaps the object of motormen in running past people waiting to take the car is to make them sprint in the hot sun. If so, they must be having a lot of fun. But it is no joke for persons who stand under a stop sign only to be compelled to run across the street to catch the car that has just run by them.

Better Ventilation for Street Cars.

The agitation for better ventilation of the pay-as-you-enter cars is another illustration of the difficulty a public service corporation encounters in its efforts to please the public. In heating and ventilating cars the best that can be done is to strike an average, to establish a happy mean between the demands of extremists. It is impossible to comply with the demands of all, hence hygiene suffers; the comfort of the many is sacrificed to the infirmities of the weak and ailing.

In the nature of things a street railroad company is compelled to umpire the perpetual dispute between healthy and vigorous people who crave fresh, cool air in abundance and those with weak lungs, frail constitutions and physical organizations rendering them abnormally sensitive to changes of temperature. It must compromise a dispute that is irrepressible. The weak and ailing are more apt to complain than the strong and healthy, and their complaints usually excite more sympathy than the kicking of persons full of strength and vitality. Therefore the wishes of the majority are often ignored in an effort to strike a balance that will satisfy the afflicted minority.

In truth, the heating and ventilating of both street and steam cars is done at the dictation of the weak and ailing. It frequently happens that a sleeping car will be heated uncomfortably and closed to fresh air to please a single consumptive traveler, who insists upon breathing an atmosphere that makes his ailment more distressing. A whole carload of passengers are put to discomfort to please a single individual. Often when a window is opened to freshen and cool the air in a car, some passenger with weak lungs and a sensitive body protests and insists that hospital conditions shall be maintained in a public conveyance.

In warm weather the air in a crowded and close car becomes fetid and oppressive to the great majority of travelers, but the frequent and sudden changes of temperature in this climate make it virtually impossible to establish any fixed rule of ventilation. Still it is not impossible to establish a rule of common sense and to comply in a reasonable degree with the desires of the great body of street car patrons. Ventilation should vary with weather conditions. No fixed rule should be adopted. During the summer months in this climate there is alternation between spells of warm sunny weather and damp, raw fogs, followed by sharp west winds. These frequent and quick climatic changes conduce to the general health and comfort of the community, but they render it exceedingly difficult to make any fixed rule for ventilating cars.

The mistake of the Traction officials is in making a fixed rule for ventilating the closed cars. It is absurd to suppose that they have a desire to incommode their patrons. Consideration for the delicate, the weak and sickly doubtless prompted the rule allowing only one window at each end of a car to be open. It is a rule that works well at times, but at other times it inflicts great discomfort on the mass of street car riders. During the present warm spell it has been very oppressive to a great number of people, hence the demand for better ventilation, for more fresh, pure air. It is a rational demand and the Traction officials should heed it and contrive some method that will obviate the discomfort of riding in cars closed at both ends.

All the misery is not caused by the high temperature. The primordial and multitudinous ass who asks at every turn: "Is it hot enough for you?" tortures worse than the heat. What prompts men to ask this fool and God-given question? It is distinctly without purpose, and indicates a complete divorce of articulation from sense. Men go on repeating it apparently to prove that they can speak without taking the trouble to think. It is vacancy of mind reduced to verbal terms.

The dissolution of the Standard Oil Trust having added millions to Rockefeller's fortune, pleas of guilty will ring forth from every corner of the land.

A woman writer says a kiss on the forehead denotes reverence. Perhaps she is right, but the average girl doesn't care for that kind of reverence.

DICTIONARY SLIPS

The popular idea is that dictionary makers are as inflexible as the words which they define, and yet from the slips which they have furnished for publication it is evident that they are as flexible as the words which they define.

When the Forty-ninth volume of the Dictionary of the English Language was published, it was the first volume of the series which had been published since the first volume was published in 1828.

The dictionary makers often took occasion to make their definitions as flexible as the words which they define. In the case of the word "bird," the definition was given as "a creature which has feathers, a beak, and is capable of flight." This definition was given in the first volume of the series, and it was repeated in the subsequent volumes.

But one of the best bits of misinformation was given in the dictionary of Edward Taylor, who in one place declared that a gull is a "man's constant companion." In another place he declared that a "man's constant companion" was a "man's constant companion." This definition was given in the first volume of the series, and it was repeated in the subsequent volumes.

ABRAHAM RUEF DISBARRED BY HIGHEST COURT

ACTION IS TAKEN TODAY

Supreme Tribunal Takes the Right to Practice Away From Prisoner

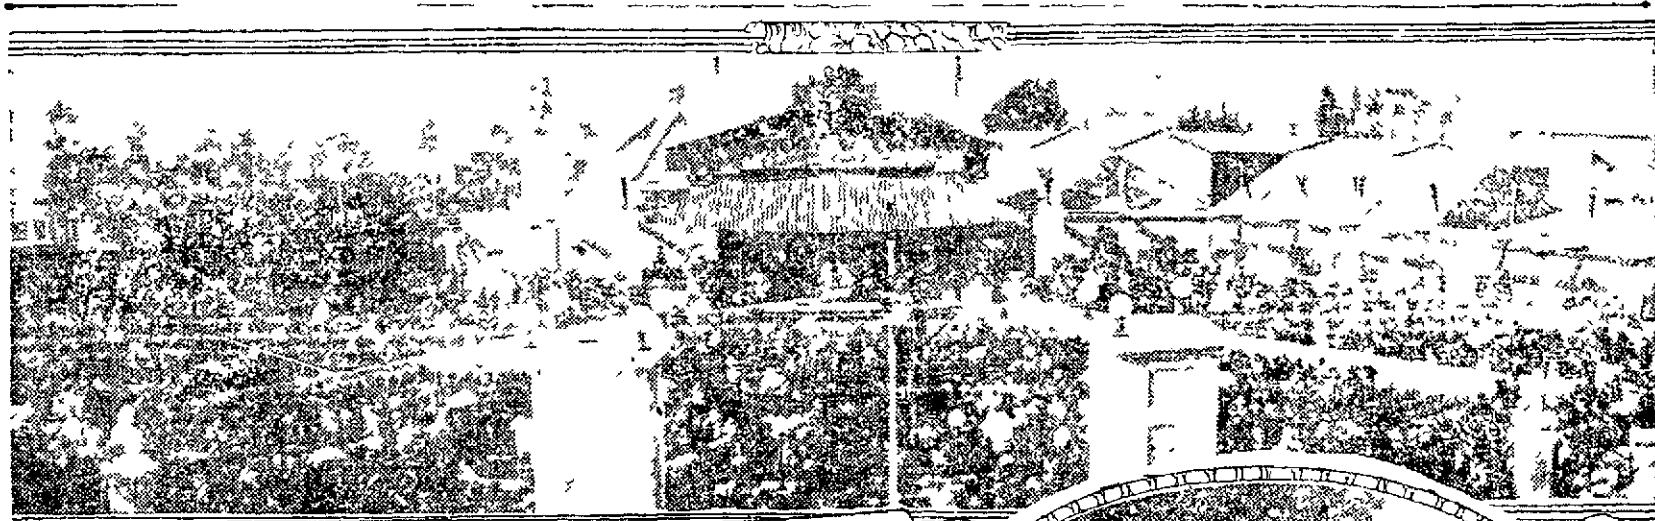

Decision Reached by Jurists Sitting En Banc; No Signatures Attached

SAN FRANCISCO, June 3.—Abraham Ruef for a long period a political power in San Francisco and during the regime of former Mayor Eugene E. Schmitz the most influential citizen in the state, was disbarred by the Supreme Court of California in a decision rendered at noon today.

The decision of the court is as follows: "A certificate of the record of conviction in the Superior Court, in and for the city and county of San Francisco, State of California, of Abraham Ruef, an attorney and counselor, of a felony involving moral turpitude, to-wit, offering a bribe, having been transmitted to this court, 'It is ordered that the said Abraham Ruef be and he is hereby removed from his office as attorney and counselor'."

removed from his office as attorney and counselor.

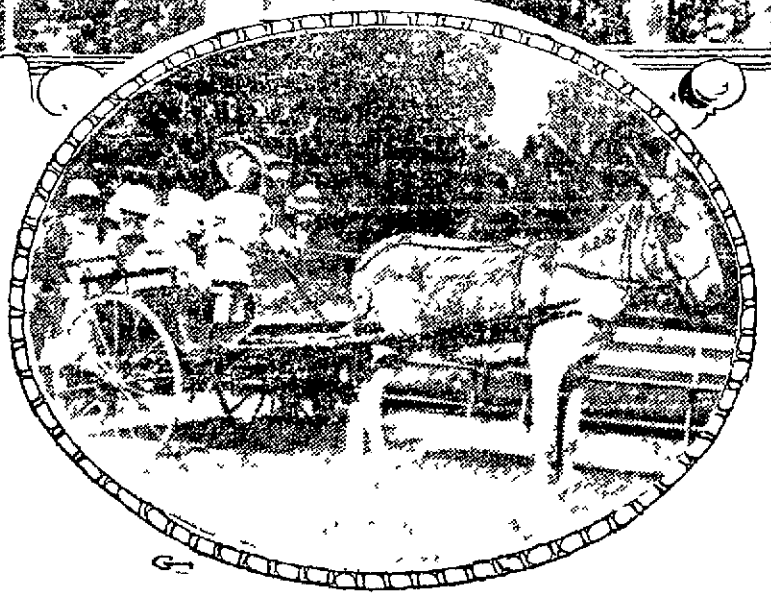

NO SIGNATURES ATTACHED.

The decision was reached by the court sitting en banc and no names of the justices are signed to the decision. Ruef was indicted nearly 150 times, but recently all of the accusations were dismissed.

Wisconsin Women To Fight Suffrage

Clubs Will Be Organized to Start "Anti" Campaign Throughout the State.

LA CROSSE, Wis., June 3.—Women of Wisconsin have organized to fight the woman suffrage movement in the state. Clubs will be organized in Madison, Eau Claire, Oshkosh and La Crosse to institute aggressive campaigns to defeat the suffrage referendum law to be voted upon next November.

Lofaso and Band to Make First Appearance on Pacific Coast on This Occasion

Lofaso and his band of Italian musicians, direct from Chicago, will make their first appearance on the Pacific coast on TRIBUNE DAY, Tuesday, June 11, at Idora Park. This is the latest feature of Oakland's great annual celebration, when 60,000 or more residents of the city about the bay and from inland points are entertained at the Park Beautiful by the city's leading paper. In addition to Lofaso, Manager Bertrand L. York of the park has also concluded arrangements for the balloon ascension by Professor Frank Hamilton, and all indications point to the greatest demonstration of the day ever held at the resort.

Announcement of the observance of the day was made only on Saturday last through the columns of THE TRIBUNE, yet already the mail received at THE TRIBUNE'S main offices on Eighth street have begun to bring in requests for information about this great affair. In answer to these THE TRIBUNE management wishes to state that it is rapidly completing all the details in conjunction with Park Manager York, and that all indications point to a celebration such as has never before been held.

HOST TO ALL OF THEM.

As on previous occasions, THE TRIBUNE will entertain each and every man, woman and child who calls at any of the local offices of the paper and asks for a ticket of admittance to the park. This ticket will return be exchanged for concession coupons at the gates of the resort, these coupons entitling each ticket holder to the enjoyment of the band concert under Lofaso's direction and five other concessions. The total monetary value represented by this entertainment is 75 cents. That amount, however, will far from represent the value received from the day spent in the shade of the park's many trees, wandering about the attractive grounds and entering the various feature amusements scattered throughout the park.

MURDER PLOT HATCHED IN PRISON

Lupo - Moreto Gang Orders Death Dealt to Men Who Put Them in Cell.

Chief of Secret Service and Judge to Be Slain by Confederates.

NEW YORK, June 3.—Behind the bars of the Federal prison at Atlanta, Ga., several members of the Lupo-Moreto gang of counterfeiters and murderers have hatched a plot to assassinate William J. Flynn, chief of the local division of the secret service, who ran the counterfeiters to bay, and Judge George W. Ray, of the United States District Court, who sentenced them to terms of from 15 to 20 years at hard labor.

One of the men told of the plot, which was hatched last December, when the Sicilians who visited Ignazio Lupo, known as 'The Wolf', were told to kill the secret service chief.

Chief Flynn said that he knew this gang, which knows who killed Detective Petrosino in Sicily, was seeking his life. Chief Flynn said the Lupo gang had decreed in Atlanta prison the death of certain Italians, and that three of them had been killed.

72 Widows of Titanic To Get Red Cross Aid

Nearly One-Half of \$150,000 Relief Fund Will Go To Unfortunates.

NEW YORK, June 3.—Seventy-two widows, sixty-two of whom lost their husbands in the Titanic disaster, have resolved, or soon will receive, one-half of the \$150,000 fund raised by the Red Cross emergency relief committee, according to the chairman's preliminary report made public today.

The report calls attention to several particularly pathetic cases. A Miss Flood lost nine relatives on the sinking ship. Mrs. Johnson, a professional singer, was so overcome by the shock of her husband's death that she lost her voice and is unable to support herself.

AGED OAKLANDER IS PROSTRATED BY HEAT

Alfred Otis, 76 years old, who gave his residence as anywhere, was prostrated by the heat yesterday afternoon at 3 o'clock. He fell to the street and was removed to the receiving hospital in the police ambulance. He was attended by Dr. Irwin Steward Platt, who reported that he would recover.

LIVING HIGHER NOW THAN EVER

Prices 10 Per Cent in Advance of Year Ago, Say Trade Authorities.

Dealers Lay Blame on Last Year's Hay Crop and Other Things.

NEW YORK, June 3.—It costs more to live in this, the month of June, 1912, than ever before in the history of the United States except perhaps during war time. Prices today are on the average nearly 10 per cent higher than a year ago, according to trade authorities.

Food products are the highest on record. Meat, eggs, butter, fish, potatoes, coffee, tea, sugar, salt, molasses, rice, beans and peas average 23 per cent higher; wheat, corn, oats, barley, flour, etc., 33 per cent higher.

Fruits are the only things good to eat that have grown cheaper in the past 12 months, but they still are higher than in 1910.

Leather products cost 12 per cent and chemicals and drugs 13 per cent more than a year ago. Textile goods, however, are a trifle cheaper.

The average increase in food products is nearly 20 per cent. The biggest advances have been in meat prices, beef, 26 per cent; hog products, 40 per cent; and mutton over 50 per cent.

Dealers lay the increase to last year's hay crop, which was poor, and the general high cost of provender. Poor crops are also held responsible for dearer breadstuffs.

The Enquirer as a Juggler

The attempt on the part of our contemporary on Tenth street to juggle and distort the advertising space figures for the month of May is laughable indeed to those who know the facts, and lest some poor, misguided mind might give the slightest credence to the juggled report that appeared in the columns of the Enquirer last Saturday evening, THE TRIBUNE herewith presents:

The Real Facts in the Case

The liberality with which credit is given THE TRIBUNE in the Enquirer's report of May advertising space in both papers, is carried to such an extreme in giving their own advertising space measurements that they have taken figures which showed a loss over the corresponding month last year, and in their juggling manipulations which might have been clever were they not so crude—have made these figures show a gain—IT IS TO LAUGH.

The Merchant Who Buys Advertising Knows

Advertising figures compiled, checked and verified by experts:

| | | |
|--|---------------|---------------|
| | May, 1912. | May, 1911 |
| Enquirer | 30,431 inches | 31,958 inches |
| Enquirer's LOSS in Business - 1527 Inches | | |
| | May, 1912. | May, 1911 |
| TRIBUNE | 45,944 inches | 45,248 inches |
| TRIBUNE'S GAIN in Business - 696 Inches | | |

Whereas, the juggling ability of the Enquirer was presumptuous enough to attempt to show an Enquirer gain—and with their extreme generosity and liberality in figures they also attempt to show a TRIBUNE gain greater than it should be.

And just to show still further decadence on the part of the Enquirer and a substantial gain and progress by THE TRIBUNE, the comparative advertising space figures for May and April, 1912, are also herewith given.

| | | |
|---|---------------|---------------|
| | May, 1912. | April, 1912. |
| Enquirer | 30,431 inches | 30,613 inches |
| Enquirer's LOSS in Business - 182 Inches | | |
| | May, 1912. | April, 1912. |
| TRIBUNE | 45,944 inches | 41,914 inches |
| TRIBUNE'S GAIN in Business - 4030 Inches | | |

BURGLAR ENTERS TAYLOR PALACE

Lumber King's Daughter's
Cries Frighten Away
Intruder.

Berkeley, June 1.—The paternal residence of Henry W. Taylor, the lumber king, at 25 The Highlands, was entered by a burglar last night, who was sent away by the presence of mind exhibited by Miss Margaret Taylor, his daughter, when she cried the alarm to her father. The burglar, who was taken to the police station, confessed that he had come to the house to steal the jewelry.

Miss Taylor slept in a room near that of her father, and this morning she was awakened by the noise of footsteps in the hall. Her door was open and, as she lay listening, a ray from a dark lantern was flashed full in her face.

She lay silent until the man left her

doorway. As she saw the light reflected from further down the hall she called out loudly to her father. At this time the man in the hall beat a hasty retreat, and she could hear his footsteps on the stairs.

Taylor sprang from his bed at the alarm, seized a revolver and went to the head of the stairs, where he called out to the intruder to stop. Reacting no as a shot he fired once into the hallway below, but the man by this time had made his escape.

The investigation showed that nothing had been taken. Patrolman Dwyer searched the neighborhood during the rest of the night, but no trace of the burglar was found.

Rev. Crook's death was due to a second stroke of paralysis, a previous stroke having occurred about 10 years ago and compelled him to resign engagements at Tulare, Porterville and Riverdale and retire to live in this city. He was born in Illinois, about 1830, nearly 60 years of age.

Born in Roscoe, Illinois, in July, 1841, he was graduated from Beloit College, Wisconsin, and then came to California to work later at the Chicago Theological seminary. In 1870 he was pastor of church in Tomah, Wisconsin, from which they came to California, preaching first at Hollister and later at San Jose. He remained at the latter city for more than 10 years.

He is survived by a widow and four

children, Mrs. E. H. Novy, Mrs. E. Williams, E. Grace Cross and Robert V. Cross. All are residents of this city.

Classy Baseball Playing Secures Top Rung for Oaks in Battle for Pennant

FIGHTING OAKS CLIMB BACK TO TOP OF HEAP

Grill and Pluck Gain First Place for the Sharpshooters After Greatest Series of the Season

When the Roy Brashear poled the ball to Gus Hetling and Gus winged Carlisle out at third at Recreation Park yesterday afternoon the greatest series ever played in the Coast League was at an end. And to add to the greatness of that series our hopes and pride were on the long end of the score, on the long end of the series and at the top of the percentage column in the race for the pennant.

In the fourth inning session we lost about 1,000 of the faithful crowd at Recreation Park to the hops and field, but the game was not over. The Oaks, playing at Recreation Park, had a bad night on the scoreboard while the rest of the league was on a high. In all that struggle, though, the Oaks fought and won. The score was 10 to 0. FAST BALL PLAYED IN STATE LEAGUE YESTERDAY

Stockton, Modesto and Galt Winners in Exciting Contests on the Diamond

SACRAMENTO, June 3.—A bad bag by Tracy Hoag in the eighth inning closed a hard fought game between the Sacramento and Stockton teams of the State League here yesterday afternoon. The Stocktonians winning by a score of 4 to 3. The toss came after Hoag had made a sensational stop of Joe Joyce's grounder between third and short. The Stocktonians broke up the game in the eighth with the assistance of Hoag's bobbles. Russell, at third, Joyce, at first, and Hoag, at short, were the main players in the game. The game was a close one, with both teams playing fast and hard. The Stocktonians were the winners, and they were well deserved.

BROTHER CHARLEY IS SOME PUMPKINS IN HURLING LINE

Senator Shows That Pitching Is One of His Best Accomplishments.

PORTLAND, June 3.—Charley Baum, a pitcher for the Portland team, is a real pumpkin in the hurling line. He has been pitching for the Portland team for several years, and he has been one of the best pitchers in the league. He has a fast ball, and he has a good curve. He is a real pitcher, and he is a real pumpkin in the hurling line.

There was no more excitement until the eighth, when Baum opened with a single to left. His second of the day, Baum followed with a Texas leaguer and a double to right. Baum then opened a spunking drive to center which looked like a hit, but Baum's grounder between third and short. S.S.S. CURES ECZEMA, ACNE, TETTER ETC
While Eczema, Acne, Tetters, Salt Rheum, etc., are troubles which affect the skin, their source is far deeper than the outside. These affections are caused by irritating humors, or uric acid in the blood. Such impurities inflame and irritate the delicate network of fibrous tissue which lies just beneath the surface of the outer skin, and the inflammatory discharge thus kept up while the blood remains infected. This exudation causes the formation of scales and crusts so often seen in Eczema, and when they are scratched off the flesh is left raw and more susceptible to other infections. It can very readily be seen then that to produce a cure the cause must be removed. It goes down to the very heart of the system and in this way removes the cause of disease. Local applications can only soothe the irritation and assist in keeping the skin clean; they never produce a cure because a such treatment does not reach the blood. S.S.S. restores to the thin, acid blood all its lost properties, makes it pure and rich and enables it to nourish the skin and keep it soft, smooth and healthy. Book on Skin Diseases and any medical advice free to all who write.

THEODORE ROBERTS AT BEST IN THE 'SHERIFF OF SHASTA'

MISS RAY COX, COMEDienne, WHO SOARS INTO GOOD GRACES
OF ORPHEUM AUDIENCES ON NEW BILL.

(By LEO LEVY.)

Theodore Roberts, in as colorful a play as ever the Oakland Orpheum staged, heads a new bill that should be the foe of hot weather and care. And all week, at that, Roberts, who has never done a piece of work that called for adverse criticism, has the title role in "The Sheriff of Shasta" and adds to his scrap book of successful things with a portrayal that is a joy to those who demand the best things in life.

A western idyl is "The Sheriff of Shasta," founded on something that Bret Harte did when literature was making history. It is the simple story of a hungry heart, a woman's, to be accurate. She lives on the plains, far from civilization. That there are great cities and splendid dresses and circuses she has only her husband for a companion.

Along comes a bespangled circus jumper, a fugitive. The sheriff is close on his trail. Murder is in the charge, and he knows the penalty they'll inflict at Bolinas. He appeals to the woman to hide him. She does. The sheriff and constable follow closely and she lies to save the splendid spouse.

APPROBES HUSBAND.
Fascinated by the pretty wife, the Sheriff of Shasta decides to stay over-night and take up the man-hunt in the morning. The husband protests; he protests further when the official makes coarse love to the woman. His jealousy and anger are aroused to the point of murder.

Night comes on with every chance for "deeds that are dark." The bespangled circus-jumper, covered, wounds the sheriff from behind at the same time that the jealous husband attempts murder with a shot-gun that happens to be loaded only with wadding.

Then are the spangles taken out of the wife's life by the constable, who charges the circus man as he tries to escape. Whereupon she confesses and sobs out her heart-story. The husband, with a lesson

MARRY ON LAUNCH AT WITCHING HOUR

Couple Wed Romantically and
Disappoint Wedding
Guests at Home.

SAN FRANCISCO, June 3.—When the wedding guests of Miss Hilda S. Carlson gathered at her home, 1275 Jones street, yesterday afternoon for her marriage to Walter S. Johnson, a law student of the University of California, they were startled with the announcement that there would be no wedding.

But while the guests were gazing with surprise it was explained that they were too late for the wedding, that it had been performed several days before, and then was told the story of how the bride and bridegroom had taken a dare and had been married at midnight May 25 on the deck of a launch near Stockton.

All preparations for her wedding had been made, invitations had been sent out and every detail attended to when Miss Carlson resolved to make a short pre-nuptial visit to Mr. and Mrs. S. R. Young of Stockton, Johnson, whose home is in Modesto, was to be a house guest at the same time.

Miss Carlson arrived on a late train and found the party ready for a launch ride. Then the great scheme was unfolded to her. Her husband-to-be had already been sworn in on the plan for a romantic wedding under the silvery moonlight in the launch.

At first the bride demurred, but the adventure finally caught her fancy and she consented. A. C. Parker, known in Stockton as the "Marrying Justice," was summoned. Only a couple of guests were taken on the launch on the day.

When the young launch, which is named the Buiklen, had steamed about a mile beyond the boundary of the city all hands were piped aft and the marriage service was read by Justice Parker. A wedding supper of cakes and wine followed.

On the following morning Johnson and his wife departed by automobile for Modesto. Everybody had been sworn to secrecy, for it was then intended that no one in San Francisco should know of it and the planned wedding should be formally gone through with yesterday.

But after the launch had returned to the Johnsons decided to make the announcement of the "elopement" when their wedding guests arrived.

They leave today by automobile for a two week's honeymoon trip to the Yosemite Valley, and from there will return to make their home in San Francisco.

AUTO VICTIM TELLS OF HIS ABDUCTION

Kansas City Bank Cashier
Heard Captors Talking
of Death.

LOS ANGELES, June 3.—Thomas Moore, a Kansas City bank cashier, was abducted yesterday to tell the full story of his night, following an automobile Thursday morning in a dark room for a day and night, and finally released after being robbed.

While he was being picked up in the street, where he had been run over, Moore heard one of the men say: "We have croaked this fellow sure."

"Toss him into the automobile and let's get out of here," commanded the man in the machine.

Moore distinctly heard the party planning to dispose of his body while he lay in a partial stupor, unable to speak.

"During the night some one frequently poured something down my throat," he said. "I remember that I cried wildly at intervals for Dr. E. J. Cook, my cousin. I begged my captors to send for him, but they would not listen to me. All night long they talked to me, but they would do it in a low, hoarse voice."

"The morning about daylight, one of the women of the gang—a big, coarse looking woman who wore a kimono and who had her hair done up in a scraggy shignon, began quarreling with the men. She said that if I was going to die I couldn't die there, and anyway, I would have to be taken away, as it would never do for me to be found in the place."

"You'll have to get him out of here, and get him out quick," said the woman. "The men growled, and one of them swore roundly, but after a talk they decided to take me away. They knew my address from the letter they had found on me."

**POURS MOLTEN METAL
OVER WORKMAN'S BACK**

MICHIGAN CITY, Ind., June 3.—For many weeks Joseph Hyman harbored a grudge against Nephram Sam, a fellow workman in a foundry, and then evened up his score. Sam may die.

Hyman's work in the foundry was to pour molten metal into molds for car wheels. As he stirred the red molten metal in a ladle, he determined to cook Sam with the fluid. He waited patiently until Sam's duties caused him to come near the ladle and stoop over to pick up some car fixtures.

Then Hyman filled his dipper full of molten metal and emptied it on Sam's back. The metal spread over his entire body and Sam fell to the floor unconscious. Water was dashed over him, but this only intensified his suffering, as the hot water scalded him. Hyman was arrested and will be held pending the outcome of Sam's injuries.

**AVIATORS GIVE THRILL
TO DEL MONTE GUESTS**

DEL MONTE, June 3.—Spiral gliders, sensational dips and passenger trips by Aviators Francis and Bryant entertained the hundreds of hotel guests and Montevideo who went to the aviation meet at Del Monte race track yesterday.

Bryant seemed a bit nervous when he took his seat in his biplane, owing to the death of Parmaleo, the account of which he had just read.

"We'll go the same way," he said as he mounted the seat. Rising to a height of 1000 feet, he circled around the track twice and alighted gracefully.

Francis took the hotel photographer up to a height of 2000 feet and then executed Hovey's spiral glides and dips. This was perhaps the most spectacular flight ever made by Francis.

EXPOSES MINING FRAUD IN BOLIVIA

American Minister Knows
Tells of Fake Letter in
Circulation.

WASHINGTON, June 3.—American Minister Knowles at La Paz has discovered and exposed a fraud which has caused great loss to many American mining prospectors. He has reported to the state department that a German fugitive from justice, now resident in Bolivia, and the owner of large tracts of land along the Tipuani river, has been circulating a fake letter signed by an American mining prospect named Ferguson, telling of rich deposits of gold along that river.

As a matter of fact, the minister says, no gold can be obtained by placer mining in the Tipuani valley. The American prospectors lured by the Tipuani claims have been assisted by the Bolivian government in prospecting other sections of Bolivia, where it is believed gold in paying quantities may be found.

PAGEANT FOR BIG FAIR IS PLANNED

Californians in London Would
Depict History of Pa-
cific Coast.

LONDON, June 3.—The Californians resident in London are planning a pageant of Pacific Coast history for the Panama-Pacific International Exposition, to be held at San Francisco in 1915. In furtherance of the plan the California colony here will send P. R. Benson, head of the Stratford Shakespeare players, to San Francisco to place the plan before the exposition directors.

For twenty-six years Benson has been in charge of the annual Shakespearean festivals held at Stratford-on-Avon. The first official step to promote the plan was taken at a luncheon given by H. E. Benson, head of the Stratford Shakespeare players, to San Francisco to place the plan before the exposition directors.

If the offer is accepted by the exposition authorities, Benson will take with him his Stratford players, who will form the nucleus for the pageant, other actors being recruited in California. The services of the players will also be offered to the exposition management for a Shakespearean series in the Greek theater of the University of California.

**MISCREANTS ATTEMPT
TO WRECK LOCAL TRAIN**

LOS ANGELES, June 3.—North-bound Santa Fe train No. 75 from San Diego for Los Angeles was run on to a side track at Galivan siding, between range and Capistrano, at 4:55 yesterday afternoon while running about thirty miles an hour.

According to railroad officials no passengers were injured. Investigation by the trainmen was declared, showed that the switch lock had been tampered with and the switch turned just enough to allow the wheels of the train to take the siding.

The only damage done, trainmen reported, was the tearing out of a few ties. The train was delayed about thirty minutes.

**LEAKING SHIP LIMPS
INTO PORT AT SEATTLE**

SEATTLE, June 3.—The wooden steamer Delhi, owned by the Pacific Coast Steamship Company and under charter to the Northern Navigation Company, returned to port yesterday from sea in a leaking condition. The Delhi, which sailed for the Kuskokwim last Wednesday with 1100 tons of general freight, developed a leak in the stern when sixty miles off Cape Flattery. The pumps were started and the vessel continued on her way, but when 220 miles out it was seen that the water was gaining on the pumps and the Delhi was not about and brought back to Seattle. Her cargo will be discharged and a survey made to determine the cause of the leak.

**BRITISH ROAD EXPERT
COMING TO AMERICA**

LONDON, June 3.—W. Ross Jefferys, secretary of the British Roads Board of Improvement, is a passenger on the Minneapolis for New York. Jefferys is going to the United States on the invitation of leaders in the American good roads movement, who are arranging a big reception for him. He expects to cross the continent by automobile, visiting the site of the forthcoming world's fair at San Francisco and see for himself the great straight level roads of the plateau and prairie states. Jefferys will present a report on his trip to the British board, so that advantage may be taken of the ideas which he hopes to bring back to improve English and Scottish roads within the limitations imposed by the climate and the nature of the landscape.

BEGINS HIS OFFICIAL DUTIES.

WASHINGTON, June 3.—Dr. Geo. F. Mitchell, new supervising officer of the ten inspection service of the Treasury Department, began his official duties in that capacity yesterday. He will start on a tour of the United States, visiting every port on the Atlantic and Pacific coasts, where tea is imported.

**WIDOW AND TWO
SONS ARE DROWNED**

Mother Goes to Aid of Sinking
Boys and Is Pulled
Down to Death.

CAMERON, Idaho, June 3.—Mrs. Howard Tupper, a widow, and her two sons, James, aged 11, and Otto, aged 15, were drowned yesterday in a pond on their homestead near here. The boys had gone to the pond to bathe, the elder boy getting in the water first. A few minutes later the younger brother heard calls for help. He rushed to the house and called his mother, who ran to the pond and plunged in.

The drowning boy caught his mother around the neck. James, who went to the assistance of his mother and brother, was caught by the brother and all three went down together. A 9-year-old daughter of Mrs. Tupper remained in the home. The only other survivor of the family is a son attending college at Forest Grove, Ore.

**STREAK OF SMOKE ONLY EVIDENCE
OF PRESENCE OF
FLAMES.**

DOYLE, Cal., June 3.—A small streak of smoke, which is diminishing rapidly, marks the end of the fire which raged in the Chilcoat tunnel, on the line of the Western Pacific last week. The railroad officials are of the opinion that the fire will have burned out in two or three days, and that work of repairing the damage will be possible.

The shoo-fly, which is under construction for the purpose of sending trains until Tuesday, owing to unforeseen obstacles. Several hundred men are at work building two trestles, each 300 feet long. These trestles have been the chief cause of delay.

Engineers are reaping a harvest of dollars by transporting passengers over the tunnel. Women are given the preference of soft seats and shaded wagons. Men are glad enough to get a ride in hay wagons. The delay thus caused is estimated at about three hours.

**ALLEGED INSANE MAN
PREACHES ON STREETS**

SAN DIEGO, June 3.—Saying that he had been divinely commissioned to preach salvation to all men, C. H. Verdon, a young man who recently arrived from Los Angeles, broke hatless from the Church of the Nazarene yesterday, where he had been listening to a sermon, and ran into the street, where he was quartered of an hour he raged up and down, delivering himself of scraps of gospel and biblical lore in a voice that could be heard blocks away. The police arrived at the scene and he submitted quietly to arrest, but later became violent in the city prison. He was moved to the county hospital and confined in a padded cell. The lunacy commission will investigate the case.

FLAMES DAMAGE LINER CARMANIA

Saloon Quarters Destroyed by
Flames of Unknown
Origin.

LIVERPOOL, June 3.—A serious fire broke out on the Cunard steamer Carmania, lying at her dock, yesterday. The fire, which was extinguished in the evening, was confined to the saloon quarters, which practically were destroyed. The damage is estimated at thousands of dollars. The hull was not injured, but a large quantity of cargo aboard has probably been badly damaged by water. The origin of the fire is not known. The scheduled sailing of the Carmania, June 4, has been canceled.

The Carmania had a narrow escape from total destruction. The flames towered above the bridge and smoke poured from every aperture amidst ships. At one time volumes of smoke rose from six different points, so rapidly did the flames work from cabin to cabin.

Several tugs came to the assistance of the firemen and so much water was poured into the vessel that she listed badly. It is strongly recommended that only by her moorings. Much apprehension was caused by a report that the Carmania had 1000 barrels of oil aboard.

The whole dining and reception saloons, and a great portion of the superstructures, were destroyed. Repairs likely will occupy two months.

**WILL CARRY OUT PLAN
TO SAIL OVER ATLANTIC**

AKRON, O., June 3.—Though disappointed that the big dirigible Akron did not make a better showing on the trial at Atlantic City, Saturday, Frank A. Seiberling, who is financing the prospective trip across the Atlantic, said today the enterprise would be no less successful. More trial trips would be made, he said, and then the dash for Europe.

MOTORMAN WRECKS CAR.

ST. LOUIS (Mo.), June 3.—One woman was probably fatally injured and a score of persons were hurt last night when a motorman of a Grand-avenue car became panic-stricken at a red light and drove into a crowd of people, jumping from the car, permitting it to collide with a work car. The conductor bolted the rear door, refusing exit to the passengers.

**'TAS HOTTEST JUNE 2 IN
NEW YORK SINCE 1872**

NEW YORK, June 3.—Yesterday was the hottest June 2 that this city has experienced since 1872, and the hottest day this year. It drove New Yorkers in thousands to the seashore and the green fields. The maximum temperature was 86 degrees at 3:30 p. m. against 87 degrees on June 2, 1872.

Trusses Like These Are a Crime

Get Rid of Elastic Bands, Springs and Leg-Straps. Such Harness Has
Forced Thousands to Undergo
Dangerous Operations.

Trusses like those shown above—the belt and leg-strap, elastic and spring contraptions sold by drug stores, surgical instrument houses and many so-called "Hernia Specialists"—make life miserable for everybody who wears them.

And—even when drawn so tight you can scarcely stand to keep them on—they do no good whatever.

Thousands often do immense harm—they squeeze the rupture, often causing strangulation—dig into the pelvic bone in front—press against the sensitive spinal column at the back.

The Pain Truth Is This.

Rupture—as explained in our free book—can't be relieved or cured—can't even be kept from growing worse—unless constantly held in place. Just as a broken bone can't "knit" unless the parts are held securely together.

And—just as a bandage or splint is the only way a broken bone can be held—the right kind of truss is the only way in the world that can keep a rupture from coming out.

What a difference it will make when you get that kind of truss.

And you can get exactly that kind of truss—without risking a cent of your money.

It's the famous Clute Truss or Clute Automatic Manager.

Far more than a truss—far more than merely a device for holding the rupture in place.

Thousands say it is as comfortable as your clothing.

No belt, elastic band or springs around your waist. And no leg-strap—nothing to pinch, chafe, squeeze or bind. Self-regulating, self-adjusting. It is held in position by rubber bands which slip—the only truss in existence that is honestly guaranteed never to let the rupture come out.

Try It 60 Days at Our Risk.

We have so much faith in the Clute Truss—so much faith in its power to cure—that we have no hesitations about making you a special offer—that we want to make you especially the first to try it.

LEGAL NOTICES

Important Notice to Voters of Registration

Office of John P. Cook, County Clerk, Oakland, Alameda County, California.

Notice is hereby given that in accordance with the provisions of section 1094 of the Political Code of the State of California, every citizen of the State of California must apply for re-registration in order to be able to vote at the primary election to be held on September 3, 1912, and for the general election to be held on the 5th day of November, 1912.

Owing to the fact that there is no provision of law granting the County Clerk the duty of registration of voters, it is important that voters should apply for registration at once, in order to expedite the process.

Such re-registration began on the first day of January and will be in progress at all times until August 3d, 1912, for the purpose of enabling voters to qualify for the primary election, after which registration will again open and continue until October 5th, 1912, for the purpose of enabling voters to qualify for the general election to be held November 5th, 1912.

The attention of voters is especially directed to the recent decision of the Supreme Court of the United States, to the effect that voters must have registered this year in order to join in the signing of any certificate of nomination in behalf of any candidate for public office to be voted for at the primary election, to be held September 3d, 1912.

Attention is further directed to the following provisions of the Political Code of the State of California, relating to registration:

Section 1091. No person's name must be placed on the register unless—

1. Upon the production and filing of a certified copy of the judgment of the Superior Court directing such entry be made.

2. If a naturalized citizen, after the production of his certificate of naturalization, which certificate must be issued ninety days prior to the succeeding election, or his affidavit for public office to be voted for in his possession, which affidavit must state the place of his nativity, and the time and date of his naturalization, together with his affidavit for public office to be voted for in the United States for five years, and in this State for one year next preceding the time of application, and that he would be an elector of the county, city and county at the next succeeding election; provided, however, if such naturalized citizen has been a resident of the county as a qualified elector in any of the counties or cities and counties of this State, and shall produce a certificate of such registration, issued by the county clerk, by law to issue such certificate, which shall recite the time and place of naturalization, and the date of his registration, shall be prima facie evidence of such naturalization. In the event that such naturalized citizen shall state in his affidavit that he has been a resident of the county, city and county in which he seeks to register, or in the event that he was previously registered within the preceding election year within the county, city and county in which he seeks to register, and his certificate of naturalization has been produced by the county clerk, he need not produce his certificate of naturalization, nor to make such affidavit of last certificate in lieu thereof; provided, however, that if any such residence or registration does not exist a record of previous registration shall not to exceed in any event said eight years.

3. If born in a foreign country upon his affidavit that he became a citizen of the United States by virtue of the naturalization of his father while he was residing in this State within the county, city and county of twenty-one years, and that he is or would be an elector of the county at the next ensuing election.

4. If born in a foreign country upon the affidavit of the party that he is or will be an elector of the county at the next succeeding election, such affidavit must be made before the county clerk, or before a judge of the registration of voters, or their deputy. If any elector is absent from the county in which he claims residence, he may appear before any judge or clerk of superior court of record, or notary public, or if in a foreign country, before any minister, consul or vice-consul of the United States, and make and subscribe an affidavit as to his residence, specifying in what ward or precinct he claims residence; that he will be an elector of the county, city and county from said county, or city and county, at all the days allowed by law for general registration of electors, and setting forth in such affidavit the facts and charges of law required by section one thousand and ninety-six of the Political Code of the State of California.

5. If the elector is absent from the county, his affidavit duly authenticated as above, by mail, enclosed in an envelope, addressed to the county clerk of any county, or the registrar of voters of any county, or the registrar of voters of any precinct, may be entered by the clerk in the proper register in such precinct.

6. In every case the affidavit of the party claiming to be an elector is required to be stated in the entry on the register, except the date of the entry.

Further notice is hereby given that such public registration must be sworn to before the County Clerk or his deputy, and that they cannot, owing to the provisions of the recent law, be sworn to by any other officer.

The office of the County Clerk will be open for registration until further notice. Every day except Sunday and the 1st of each day, except Saturdays, on which days the office will close at 12 o'clock noon.

Dated: March 11, 1912.

JOHN P. COOK,
(SEAL) County Clerk.

Post Tax Notice

Office of the Assessor of Alameda County.

Oakland, March 11, 1912.

Notice is hereby given that the Poll Tax of two dollars for the year 1912 is now payable at the Assessor's Office, Court House, or to the Deputy Assessor.

Section 2333 of the Political Code reads as follows:

"Every person inhabiting the State over twenty-one and under sixty years of age except paupers, insane persons and idiots, must annually pay a Poll Tax of two dollars, provided the same be assessed between the

First Monday in March and the first Monday in August.

Then it shall be three dollars.

Every person who is an Elector of the State, if the duty of the Assessor to demand Poll Tax of every person liable thereon, and on the next day after the expiration of the term of office, must collect by seizure and sale of any personal property owned by such person.

Under Sections 429 and 435 every person who refuses to give his own name or the name of any person in his employ, or who in any manner obstructs or hinders the public officers in the collection of the State Poll Tax, is guilty of a misdemeanor, and liable to a fine of not more than five hundred dollars, or to both fine and imprisonment.

Only those persons under twenty-one or over sixty years of age are exempt. Poll tax must be paid in advance.

C. F. HOWARD,
Assessor of Alameda County.

Ordained Clerk of the County of Alameda, California, March 11, 1912.

100 TEACHERS FOR THE PHILIPPINES

Young Men and Women of U. S. Colleges and Normal Schools Chosen.

WASHINGTON, June 3.—The Bureau of Insular Affairs has just completed the selection of over 100 American teachers for service in the Philippine Islands. These young men and women come from the best universities, colleges and normal schools in almost every section of the United States, and were selected from a larger eligible list of candidates than ever before applied for positions with the Insular Bureau of the Government service.

More than eleven years of our educational experiment there has demonstrated to those who have investigated the subject that, as a noted educator on his return from the Orient said, "the achievements of the Bureau of Education in the Philippines makes as bright and inspiring a chapter of history as was ever written," and that our Insular service offers an excellent opportunity for honest, energetic and well educated young men to render a most conspicuous service for the Government and for themselves.

It is very gratifying to the officials to know that there is such an increasing interest in its Insular positions and that it can depend upon young, clear-brained and clear-minded men of good education to enter its service and assist in the solution of some of the problems which daily confront it.

Students of travelers in the Orient in recent years have returned to the United States with the report that the East is to be the center of the greatest governmental activities of the twentieth century, and our position in the Philippines has made it possible for those on the ground to get an insight into these problems and take a very active part in their solution insofar as the participation by the United States government is concerned. The development of the American public school system in the Philippines, modified to meet local conditions, has been a most remarkable one during the past ten years, yet the opportunity for further growth is very great. The organization is still in its primitive period and these hundred young men who have just sailed from San Francisco to add their training and experience to the nine thousand American and Filipino teachers already on the ground and familiar with the local situation, will result in a very material advance in the performance of our obligations in the Philippines.

TWO AVIATORS DIE IN TERRIBLE FALL

Thousands See Noted Flyer and Army Officer Killed at Bremen.

BREMEN, June 3.—Albert Buchtaetter, a widely known German aviator and the passenger, Lieutenant Stille of the German army, were dashed to death from a height of 200 feet yesterday when their aeroplane fell in the presence of several thousand people.

The men were riding in a monoplane and as they were turning the machine tipped and fell with terrific force. It struck the ground with such impact that it was imbedded several feet and had to be sawed to pieces before the bodies of the two men could be released. Both Buchtaetter and Stille were mangled almost beyond recognition.

The men were just fairly away on what is known as the northwest aviation circuit when the accident happened. When the great throng that had assembled for the event realized the accident that had befallen the men there was a semi-panic, among the first to reach the wrecked monoplane was the Grand Duke of Oldenburg.

Thirteen professional aviators with members of the army aviation corps as passengers had entered the contest, but when the accident occurred the event was abandoned. Buchtaetter had several notable flights to his credit and made many air trips last year.

SOUTHERN PACIFIC HAS GIANT BRIDGE

Railroad Structure at Sacramento Is 2200 Feet in Length.

SACRAMENTO, June 3.—Sufficient concrete to put a six-inch cover on a 50-foot street a mile long is contained in just one pier of the new Sacramento river bridge of the Southern Pacific Company recently completed and placed in operation as a part of the double tracking of the system. Completed the new bridge is 2200 feet in length, contains 13,000 cubic yards of concrete and 9,200,000 pounds of steel. It has the heaviest swing span of any like structure yet erected, weighing 6,300,000 pounds.

The upper deck has an 18-foot waist road with a 3-foot sidewalk on each side. The lower deck is to be used for the double tracks of the Southern Pacific. The piers upon which the bridge rests average 90 feet in height, or about as tall as an 8-story office building, and each occupies a space as large as an ordinary city lot.

BURNHAM'S BODY IS CREMATED IN EUROPE

HEIDELBERG, June 3.—The body of Daniel Hudson Burnham, the famous architect, was suddenly cremated here yesterday and the ashes will be taken to the United States next week by Mrs. Burnham, her son and son-in-law. Burnham arrived here a few days ago to take the cure for Bright's disease, but was exhausted by the trip and failed to rally. Americans here and at the capital were greatly shocked by the news of his death.

CHERRY GROWING SHOWS INCREASE

Census Reveals That the East North Central Division Ranks First.

WASHINGTON, D. C., June 3.—A preliminary statement of the general result of the thirteenth census relative to the production of cherries in

the United States was issued today by Director Durand of the Bureau of Census, Department of Commerce and Labor. It was prepared under the direction of Le Grand Powers, chief statistician, and John Lee Coulter, expert special agent, for agriculture. Further analysis may result in immaterial modifications of the totals.

The production of cherries in 1909 was reported as 4,126,993 bushels, valued at \$7,231,160, while in 1909 it was 2,873,439 bushels, value not stated. There was a decrease in the number of trees of bearing age from 11,943,287 in 1900 to 11,822,044 trees in 1910.

PRODUCTION BY DIVISIONS. The East North Central division ranks first in the production of cher-

ries in 1909, the amount being 1,419,298 bushels, valued at \$2,382,344; followed by the Pacific, with 813,494 bushels, valued at \$1,500,155; Middle Atlantic, 791,362 bushels, \$1,541,708; West North Central, 515,690 bushels, \$935,537; South Atlantic, 327,706 bushels, \$394,390; mountain 147,854 bushels, \$300,485; East South Central, 84,873 bushels, \$143,166; New England, 14,904 bushels, \$28,424; and West South Central, 9,954 bushels, \$14,403.

PRODUCTION BY STATES. California leads all states in the cherry crop for 1909, a production of 501,012 bushels, valued at \$951,624, having been reported. Pennsylvania is next, with 475,093 bushels, \$909,976; Indiana, 362,993 bushels, \$508,016; Michigan, 338,946 bushels, \$590,829; Ohio, 338,644 bushels, \$657,409; Illinois, 287,376 bushels, \$453,474; New York, 271,587 bushels, \$544,508; Iowa, 260,432 bushels, \$455,022; Oregon, 181,039 bushels, \$269,934; Virginia, 132,671 bushels, \$134,428; and all other states, 976,248 bushels, \$1,755,444.

HIGH LIVING SPOILS RELIGION, SAYS PASTOR

ANDERSON, Ind., June 3.—C. M. Dinmore, at the First Baptist Church last night, preached on "Why Preachers Go Wrong."

Among several reasons cited were that a preacher is only human, that his temptations are more subtle and that some are weak morally before they begin to preach. High living was another cause.

The speaker said "too much chicken spolia many a man's religion, because it spoils his health first." He also said Micah, Abiathar and David were examples of preachers going wrong, and that such wrong is not a modern event.
